

Give A Little More

There are people all around us
Opportunities in view,
And if your spirits need a lift,
There's something you can do.
Just look to find someone in need,
No doubt, they've offered prayer.
For God will always work through us
To let them know He's there.

Chorus

*You don't have to know someone
To give of your heart.
You don't have to change something
Just be who you are.
For as you live and serve with love,
Your light won't be ignored.
Find the joy that waits for you,
And give a little more.*

Maybe things for your aren't perfect,
They might be downright bad,
But like I said if you need joy,
Find someone else who is sad.
You really don't need to look far.
Close by is far enough.
And as you share in simple ways,
You can feel God's love.

Repeat Chorus

*Find the joy that waits for you.
Just give a little more.*
